EXTERNAL REVIEW TEAM

Dr. Katrina Armstrong
Jackson Professor in Clinical Medicine
Harvard Medical School
Physician-in-Chief, Department of Medicine
Massachusetts General Hospital

Katrina Armstrong, MD, MSCE, is the Jackson Professor at Harvard Medical School, and Physician-in-Chief, Department of Medicine at Massachusetts General Hospital (MGH). Dr. Armstrong is a graduate of Yale University and the Johns Hopkins University School of Medicine. She was a resident and chief resident in Medicine at Johns Hopkins and completed a general internal medicine fellowship and Masters of Science in Clinical Epidemiology at the University of Pennsylvania. After joining the faculty at Penn she became Chief of the Division of General Internal Medicine. At Penn, she also served as Associate Director of the Abramson Cancer Center and Co-Director of the Robert Wood Johnson Clinical Scholars Program. In April of 2013, she was appointed as physician-in-chief of the MGH Department of Medicine.

Dr. Armstrong is an internationally recognized investigator in the areas of medical decision making, quality of care, and cancer prevention and outcomes. For her work, she received the Outstanding Junior Investigator of the Year Award from the Society of General Internal Medicine, the Outstanding Investigator Award from the American Federation of Medical Research, the Alice Hersh Award from Academy Health, and election to the American Society of Clinical Investigation and National Academy of Medicine.

In addition to her career in health policy and disparities research, Dr. Armstrong is a dedicated practicing internist with a longitudinal primary care practice and rotations as the Bigelow visit on the inpatient general medicine services. Over her career, Dr. Armstrong has prioritized medical education, including developing and leading courses on clinical decision making at Penn and at MGH and founding multiple innovative educational programs. Diversity and inclusion are central to Dr. Armstrong's leadership, including her award-winning roles in the advancement of women, her commitment to programs to support diversity across faculty and trainees at the MGH, and her research leadership in health disparities and community based research.

Dr. Graydon Meneilly
Professor of Medicine, Division of Geriatrics
University of British Columbia
Physician-in-Chief, Department of Medicine
Vancouver Acute Services
Regional Department Head, Vancouver Coastal
Health and Providence Health Care

Dr. Graydon Meneilly is Professor in the Division of Geriatric Medicine, Physician-in-Chief at Vancouver General Hospital, and Regional Department Head for Vancouver Coastal Health (VCH) and Providence Health Care. He was head of the University of British Columbia (UBC) Department of Medicine from July 1, 2002 until January 15, 2017.

He earned his MD at the University of Saskatchewan and undertook an internship at the Royal Jubilee Hospital in Victoria before completing his residency at the University of Toronto as a Chief Resident. Dr. Meneilly completed a research and clinical fellowship in geriatric medicine and gerontology in the Division of Aging at Harvard Medical School and subsequently joined the faculty at UBC.

Prof. Meneilly's research focuses on diabetes and carbohydrate metabolism in the elderly. Dr. Meneilly has made important contributions to how the pathogenesis of glucose intolerance and the development and treatment of diabetes in the elderly are understood. He has authored over 125 peer-reviewed publications and presently serves as associate editor for *BMC Geriatrics*.

In 2011, Prof. Meneilly was elected Governor of the British Columbia Chapter of the American College of Physicians. He recently concluded his term after being elected as an Association of Professors of Medicine Council Member At-Large for the Alliance for Academic Internal Medicine.

In recognition of his international contributions to medicine and for his service to his community and profession, Dr. Meneilly was honoured with a Mastership in the American College of Physicians. Dr. Meneilly received a Special Service Award from VCH for his service to VCH-Vancouver Acute Services. He is presently a member of the Canadian Academy of Health Sciences.
